

## Spanish Language Corridor Application

Language Corridors, which are comprised of the French, Italian, German, and Spanish corridors, is a wonderful opportunity for you to interact with a community of students with deep interest in the respective cultures and communities of the U.S. and abroad. Each language corridor will be assigned contiguous rooms in the residence halls.

Given the limited space availability, we are interested in students committed to building community within the specific language corridor and the greater language community through inclusive, group-based activities. Suggested activities include cooking/dinner, movie nights, listening to language-specific music together, discussing political topics related to the language-specific world or a reading club.

Scripps Language Assistants (from a French-, German-, Italian-, and Spanish-speaking country) will be an integral member of the language community. This person will actively participate in the organization of corridor- and building-specific activities and keep everyone informed of what's happening in the community.

## Spanish Questionnaire

Please answer these questions to the best of your ability. These questions directly correspond to the language corridor you have expressed interest in living for the 2024-25 academic year.

**Describe any experience you've had living or traveling in a Spanish speaking country.**

**Why do you want to live in the language community?**

**What relevant language courses have you taken while at Scripps? Include the names of professors.**

**How do you think the language community will add to the quality of your residential experience at Scripps?**

**What activities/programs would you propose as your contribution to the language community?**

**Why do you think it is important to cultivate a community of Spanish speakers and learners at Scripps?**
