## OFFICE OF CASE MANAGEMENT

The College's **Off-Campus Referral Program** provides access to mental health resources and assists with fees for students needing financial assistance. Beginning in the fall, there will be no cap on the number of counseling sessions for students served by this program, which will now also provide qualifying students with financial assistance to cover fees for out of state providers. The program provides referrals for any Scripps student needing help locating a counselor in their area. Many counselors are providing online and remote therapy options during the pandemic.
