

Privacy and Options:

The Scripps Application is provided for the convenience of members of the Scripps College community. Use of the application to access publicly available information about Scripps College, including Scripps College or Claremont Consortium events, does not require registration or the creation of a user profile. If you choose to create a profile in the application, the information that you input will not be stored on the Scripps College computer network. Such information will be stored on a cloud-based storage system managed by the application’s developer, OOHLALA Mobile, Inc. OOHLALA’s Privacy Statement and Security Features can be found upon download.

There are certain functions of the app, such as the campus wall and schedule, that are not accessible to the public and require registration using a scrippscollege.edu email address. As a registered user on the app, you have the option to send and accept friend requests. Please be informed that once you accept a friend request, the app will share your class schedule, if you choose to input it, with your friends by default. If you wish to opt out of this feature, please follow these steps:

-iOS: On the homepage, click the 'Settings' button in the top right hand corner. Scroll down and click on 'Privacy Settings'. Here, click on the toggle called "Timetable Visible to Friends" in order to opt out of calendar sharing. A screenshot is attached.

-Android: On the homepage, click the 'Settings' button in the top right hand corner. Scroll down and click on 'Privacy Settings'. Here, click on the toggle called "Make my courses timetable visible to friends" in order to opt out of calendar sharing. A screenshot is attached.
