

RESOURCE GUIDE FOR STUDENTS

PRIMARY CONTACT DEAN

Every student is assigned to a Primary Contact Dean (PCD), based on the student's last name. If students are having difficulty accessing services, they should contact their primary contact dean (PCD) to schedule a meeting. The role of a PCD is to provide guidance in these situations and to facilitate a connection with campus and community partners that can help students thrive academically and personally.

If you are a current student who still has unanswered questions and you need additional support or questions answered, please contact your [Primary Contact Dean](#).

OFFICE OF CASE MANAGEMENT

The Office of Case Management coordinates student services and provides referrals to the appropriate resources at Scripps College, the Claremont University Consortium, and the regional community.

The College's Off Campus Referral Program provides access to mental health resources and assists with fees for students needing financial assistance. The program provides referrals for any Scripps student needing help locating a counselor in their area. Under the program, the college will cover up to 8 therapy sessions per semester that are rendered by an approved provider. This subsidy is available during a single academic year. This subsidy is available only to currently enrolled Scripps students and does not apply to any treatment provided during breaks when school is in recess.
