Report of Independent Auditors

The Board of Trustees Scripps College

Report on the Financial Statements

We have audited the accompanying financial statements of Scripps College, which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Scripps College as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Accounts and notes receivable	256,145	(981,550)
Contributions receivable	(91,369)	(44,598)
Prepaid expenses, deposits, and other	(73,051)	451,598
Accounts payable and accrued liabilities	(4,656,846)	4,346,566
Deposits and deferred revenue	612,906	(138,444)
Defined benefit plan contributions (over)/under expense	=	(622,547)
Contributions for long-term investments	(7,907,981)	(6,034,796)
Net cash (used in) operating activities	\$ (8,331,263)	\$ (9,239,669)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Founded in 1926, Scripps College (the "College") is an independent, liberal arts college for women with a distinctive interdisciplinary core curriculum offering instruction in the humanities, fine arts, and the natural and social sciences. The College had an enrollment of approximately 1,030 students as of June 30, 2017. The campus is listed on the National Register of Historic Places.

It's mission is to educate women to develop their intellect and talents through active participation in a community of scholars, so that as graduates they may contribute to society through public and private lives of leadership, service, integrity and creativity.

Scripps College is a nonprofit corporation exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and corresponding California provisions. The following accounting policies of the College are in accordance with those generally accepted for colleges and universities.

Basis of Presentation:

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Net Asset Categories:

The accompanying financial statements present information regarding the College's financial position and activities according to three categories of net assets: unrestricted, temporarily restricted, and permanently restricted. The three categories are differentiated by donor restrictions.

Unrestricted Net Assets:

Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets:

Net assets that are subject to donor-imposed restrictions that either lapse or can be satisfied.

Permanently Restricted Net Assets:

Net assets subject to donor-imposed restrictions that they be maintained permanently by the College. Generally, the donors permit the College to use all or part of the earnings on these assets for general or specific purposes.

Revenue and Expense Recognition:

Tuition and Fees – Student tuition and fees are recorded as revenues in the year during which the related academic services are rendered. Student tuition and fees received in advance of services to be rendered are recorded as deferred revenues. Collectability of student accounts and notes receivable is reviewed both individually and in the aggregate. Allowances have been established based on experience, and balances deemed uncollectible are written off through a charge to bad debt expense or the provision for doubtful accounts and a credit to accounts receivable. The College follows federal guidelines for determining when student loans are delinquent or past due for both federal and institutional loans.

Grants and Contracts - The College follows federal guidelines for determining when student loans are delinquent or past due for both federal and institutional loans. Revenue from grants and contracts are reported as increases in unrestricted net assets, as allowable expenditures under such agreements are incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Revenue and Expense Recognition, Continued:

Contributions – Contributions, including unconditional promises to give, are recognized as revenue in the period received and are reported as increases in the appropriate category of net assets. Contributions where donor restrictions are met within the same fiscal year as the contribution are included in unrestricted net assets. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received in future periods are discounted to net present value at an appropriate discount rate. Individual uncollectable accounts are written off against the allowance when collection of the individual contributions receivable appears doubtful. The College did not record an allowance for doubtful contributions receivable as of June 30, 2017 and 2016.

Investment Return – Investment income and gains and losses on investments and changes in other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation.

Expenses – Expenses are generally reported as decreases in unrestricted net assets. The financial statements present expenses by functional classification in accordance with the overall educational and research mission of the College.

Operating Revenues and Expenses:

The College reports operating revenues and expenses in the unrestricted net asset section of the Statements of Activities. Operations are those annual activities which support the core mission of the College.

Operating revenues include charges for tuition, room and board, net of financial aid, gifts and grants, spending policy income, other investment income, releases of temporarily restricted net assets for operations and unrestricted annuity and life income, and miscellaneous income.

Unrestricted gifts and bequests in excess of \$1 million each are considered non-operating, as are gifts in kind. Gifts in kind, due to their non cash nature, are not available to pay for operating expenses.

Operating expenses (for which the operating revenues are used) include salaries and benefits, departmental expenses, depreciation, amortization and interest. These expenses are classified into four cost centers called; Academic Program, Cocurricular Program, Marketing and Administrative and General.

Operating Expense Categories and Allocation of Certain Expenses:

The Statements of Activities present expenses by four functional categories. Academic Program includes expenses for instruction and related academic support departments such as libraries, the Dean of Faculty and Registrar's Offices. Cocurricular Program includes expenses associated with the residential life operation of the College and related support departments such as Dean of Students Office and Career Planning and Research. Marketing expenses for revenue development for the College include departments such as Admission/Financial Aid, Public Relations, Alumnae Relations and the Advancement Office. Administrative and General includes expenses such as planning, institutional research, liability insurance, legal and audit fees, and the President and Treasurer's Offices.

Depreciation, interest expense and the cost for the operation and maintenance of the physical plant are allocated to the four functional categories based on building square footage dedicated to that specific function. Computing costs are allocated based upon estimated use.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Expiration of Donor-Imposed Restrictions:

The expiration of a donor-imposed restriction on a contribution or on endowment income is recognized in the period in which the restriction substantially expires. At that time, the related resources are reclassified to unrestricted net assets. A restriction expires when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. The College follows the policy of reporting donor-imposed restricted contribution and endowment income whose restrictions are met in the same period as received as unrestricted support. It is also the College's policy to recognize the fulfillment of the restrictions on contributions of cash or other assets received for the acquisitions of long-lived assets when the long-lived assets are placed into service.

Cash:

For the purposes of reporting cash flows, cash includes demand deposit bank accounts.

Concentration of Credit Risk:

Financial instruments that potentially subject the College to concentrations of credit risk consists principally of cash deposits at financial institutions and investments in marketable securities. At times, balances in the College's cash and investment accounts exceed the Federal Deposit Insurance Corporation (FDIC) or Securities Investors Protection Corporation (SIPC) limits.

Investments:

Cash Equivalents – Resources invested in money market funds are classified as cash equivalents, including any such investments held by external investment managers. Resources invested in money market funds for loan programs are classified as short term investments.

Marketable Securities and Other Investments – Marketable securities are reported at fair value, except for trust deed loans, certain real estate investments, and other miscellaneous assets which are stated at cost. The cost of securities sold is determined by the average cost method and is used to compute realized gains and losses. Unrealized gains and losses reflect the changes in the market values of investments from the prior year. The date of record for investments is the trade date.

At June 30, 2017 and 2016, the College held beneficial interests in outside trusts of approximately \$11,346,000 and \$10,221,000, respectively. These trusts are administered by outside trustees, with the College deriving income and/or a residual interest from the assets. When an irrevocable trust is established or the College is notified of its existence, the College recognizes its beneficial interest in the trust as a contribution at fair value, which is measured as the present value of the estimated expected future benefits to be received when the trust assets are distributed. The contribution revenue recognized is classified as an increase in either temporarily or permanently restricted net assets based on the time or use restrictions placed by the donor upon the College's beneficial interest in the assets. Periodic adjustments to the beneficial interest to reflect changes in the fair value, life expectancy of 4.9 years, and discount rate of 7.5% are recognized as actuarial gains or losses. The discount rates used are commensurate with the risks associated with the contribution.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Investments, Continued:

Alternative Investments – Venture capital investments are stated at fair value as of the most recent valuation date at or prior to year-end. Diversified limited partnership interests are invested in both publicly and privately owned securities. The fair values of private investments are based on estimates and assumptions of the general partners or partnership valuation committees in the absence of readily determinable market values. Such valuations generally reflect discounts for illiquidity and consider variables such as financial performance of investments, recent sales prices of similar investments and other pertinent information. The private investments have a high concentration of pre-initial public offering securities, subjecting these investments to market value volatility.

Due to the risks associated with certain investments and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in risks in the near term could materially effect account balances and the amounts reported in the Statements of Financial Position.

Bond Reserve Fund – Indenture requirements of bond financing (see Note 8, "Bonds and Note Payable") provide for the establishment and maintenance of various accounts with trustees. The indenture terms limit the use of these funds to the construction of plant facilities and payment of principal and interest to bond holders. Assets whose use is limited are comprised of cash equivalents, government and corporate securities and are recorded at cost, which approximates fair value.

The College reviews and evaluates the values provided by the investment managers and believes the valuation methods and assumptions used in determining the fair value of the alternative investments are appropriate. Net realized and unrealized gains (losses) from alternative investments, on the Statements of Activities, for the years ended June 30, 2017 and 2016 are approximately \$46,180,000 and \$726,000, respectively.

Management of Pooled Investments:

The College follows an investment policy, which anticipates a greater long-term return through investing for capital appreciation, and accepts lower current yields from dividends and interest. In order to offset the effect of lower current yields for current operations, the Board of Trustees has adopted a spending policy for pooled investments whereby the amount of investment return available for current operations is determined by applying 5.24% and 5.33% to the twenty-quarter average market value of pooled investments for the years ended June 30, 2017 and 2016, respectively. If the ordinary income of pooled investments is insufficient to provide the full amount of investment return specified, the balance may be appropriated from the available cumulative realized gains of the pooled investments. Cumulative net realized gains and transfers of ordinary income in excess of the spending policy ("cumulative gains") are recorded as changes in unrestricted and temporarily restricted net assets and are available for appropriation under the College's spending policy.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Endowment Funds:

The Board of Trustees of the College interprets the California Uniform Prudent Management of Institutional Funds Act (UPMIFA) to state that the College, in the absence of explicit donor stipulations to the contrary, may appropriate for expenditure or accumulate so much of an endowment as the College determines prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. Therefore, the College classifies as permanently restricted net assets the original value of gifts to the endowment and the accumulations made in accordance with the donor intent. The remaining portion of the donor-restricted endowment fund is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the college in a manner consistent with the standard of prudence prescribed by California UPMIFA which includes the:

- (1) Duration and preservation of the fund
- (2) Mission of the College and purpose endowment fund
- (3) General economic conditions
- (4) Possible effects of inflation and deflation
- (5) Expected total return from income and appreciation of investments
- (6) Other resources of the College
- (7) Investment policy of the organization.

Funds with Deficiencies:

From time to time declines in the market value of the investment pool have created a situation where the fair value of certain endowments is less than the historical cost basis of the original gift(s). Deficiencies of this nature have been recorded as decreases in unrestricted net assets.

Fair Value Measurement of Financial Instruments:

A financial instrument is defined as a contractual obligation that ultimately ends with the delivery of cash or an ownership interest in an entity. Disclosures included in these notes regarding the fair value of financial instruments have been derived using external market sources, estimates using present value or other valuation techniques. Determination of the fair value of loan fund receivables, which are primarily federally sponsored student loans with U.S. government mandated interest rates and repayment terms and subject to significant restrictions as to their transfer or disposition, could not be made without incurring excessive costs.

The College carries most investments and its beneficial interest in trusts held by a third party at fair value in accordance with applicable standards. Fair value is defined as the price that would be received to sell an asset (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. The standard establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the College has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 – Inputs that are unobservable.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Fair Value Measurement of Financial Instruments, continued:

Inputs are used in applying the valuation techniques and broadly refer to the assumptions that the College uses to make valuation decisions, including assumptions about risk. Inputs may include quoted market prices, recent transactions, manager statements, periodicals, newspapers, provisions within agreements with investment managers and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The categorization of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the College's perceived risk of that investment.

The investments in cash equivalents, money market, certain domestic and international equities, and domestic fixed income funds are valued based on quoted market prices, and are therefore typically classified within Level 1.

The investments in domestic fixed income, certain real properties, assets whose use is limited, and other assets are valued based on quoted market prices of comparable assets, and are therefore typically classified within Level 2.

The investment in beneficial interest in trusts held by third parties are valued utilizing unobservable inputs, and therefore classified within Level 3. These assets are presented in the accompanying financial statements at fair value.

The investment in certain equity securities, international fixed income, hedge funds, and private equity are valued at net asset value (NAV), and are therefore classified under NAV per share (or equivalent). For these investments, the College has determined, through its monitoring activities, to rely on the fair value as determined by the investment managers. The College's determination of fair value is based upon the best available information provided by the investment manager and may incorporate management assumptions and best estimates after considering a variety of internal and external factors. Such value generally represents the College's proportionate share of the capital of the investment as reported by their general partners and hedge fund. The balance of unfunded commitments, remaining life of finite investments and the terms for redeeming from investment funds including any restrictions are disclosed below.

The general partners and managers of the underlying investments generally value their investments at fair value in accordance with appropriate standards. Investments with non readily available market are generally valued at estimated fair value by referring to meaningful third-party transactions, comparable public market valuations and/or the income approach. Consideration is also given to financial condition and operating results of the investment, the amount that the investment partnerships can reasonably expect to realize upon the sale of the securities, and any other factors deemed relevant. An investment can be carried at acquisition price (cost) if little has changed since the initial investment of the company and is most representative of fair value. Investments with a readily available market (listed on a securities exchange or traded in the over-the-counter market) are valued at quoted market prices or at an appropriate discount from such price if marketability of the securities is restricted.

Although the College uses its best judgment in determining the fair value, there are inherent limitations in any methodology. Therefore, the values presented herein are not necessarily indicative of the amount that the College could realize in a current transaction. Future confirming events could affect the estimates of fair value and could be material to the financial statements. These events could also affect the amount realized upon liquidation of the investments.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Collections:

The College capitalizes its collections of works of art and rare books at their appraised or estimated current market value upon date of gift. In some cases, collection items held solely for their potential educational value or historic significance, or where the cost to establish the current fair value was deemed to exceed the benefit, were not assigned value for the purpose of capitalization.

Plant Facilities:

Plant facilities consists of property, plant and equipment and are stated at cost, representing the original purchase price or fair value at the date of the gift, less accumulated depreciation. Plant purchases with a useful life of five years or more and a cost equal to or greater than \$25,000 for land improvements, \$50,000 for large buildings (10,000 square feet), \$25,000 for other buildings and \$15,000 for equipment are capitalized. Depreciation is computed on a straight-line basis over the estimated useful lives the assets, generally, 25 years for land improvements, 60 years for buildings, 15 years for infrastructure equipment, 4 years for computing equipment and 7 years for other equipment. Depreciation expense is funded through operations and contributions. The cost and accumulated depreciation of assets sold or retired are removed from the accounts and the related gains or losses are included in the Statements of Activities. Asset retirement obligations are recorded based on estimated settlement dates and methods.

During fiscal years ended June 30, 2017 and 2016, no equipment or property was acquired with restricted assets where title may revert to another party, and there were no disposals of equipment or property purchased with federal funds.

Annuity and Life Income Contracts and Agreements:

The College has legal title to annuity and life income contracts and agreements subject to life interests of beneficiaries. No significant financial benefit is now being or can be realized until the contractual obligations are met. However, the costs of managing these contracts and agreements are included in operating expenditures. The College uses the actuarial method of recording annuity and life income contracts and agreements. Under this method, the asset is recorded at fair value when a gift is received. The present value of the aggregate annuity payable is recorded as a liability, based upon life expectancy tables, and the remainder is recorded as a contribution in the appropriate net assets category. Investment income and gains are credited, and annuity payments and investment losses are charged, to the liability accounts, with periodic adjustments made between the liability and the net assets to record actuarial gains or losses. The actual liability is based on the present value of future payments discounted at rates ranging from 3.8% to 8.0% and 2.0% to 7.5% over estimated lives according to the 2003 Unisex Mortality Tables at June 30, 2017 and 2016, respectively.

On December 2, 1998, the Insurance Commission Chief Counsel granted the College permission to invest its reserves for California annuities pursuant to Insurance Code Section 11521.2(b). This approval is subject to the following conditions: (1) maintain a Nationally Recognized Statistical Rating Organization (NRSRO) bond rating of "A" or better and (2) maintain an endowment to gift annuity reserve ratio of at least 10:1.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED:

Income Taxes:

The objective of the College is to maintain and conduct a 501(c)(3) nonprofit educational institution. The primary purpose of accounting and reporting is the recording of resources received and applied rather than the determination of net income. The College had no uncertain tax positions and/or obligations at June 30, 2017 and 2016. The College has no unrecognized tax benefits as of June 30, 2017 and 2016.

Accounting Standards Adoption:

In August 2014, the Financial Accounting Standards Update No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (Subtopic 205-40), which requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued and to provide related footnote disclosures in certain circumstances. The guidance is effective for annual periods after December 15, 2016. The College has implemented this guidance as of and for the year ended June 30, 2017. There was no impact to the College as a result of this guidance.

NOTE 2 - ACCOUNTS AND NOTES RECEIVABLE:

Accounts receivable at June 30, 2017 and 2016 are as follows:

2017		2016
\$ 205,462	\$	268,512
23,265		8,644

NOTE 3 - CONTRIBUTIONS RECEIVABLE:

Unconditional promises to give are included in the financial statements as contributions receivable and revenue of the appropriate net asset category. Promises to give are initially recorded at fair value, by discounting to the present value of future cash flows at rates ranging from 2.7 to 5.1%.

Unconditional promises to give at June 30, 2017 and 2016 are expected to be realized in the following periods:

	2017	2016
Within one year	\$ 4,230,400	\$ 7,181,986
Between one year and five years	5,209,977	6,090,120
More than five years	12,706,772	 12,228,184
	22,147,149	 25,500,290
Less discount	(571,048)	(657,459)
Less allowance for doubtful contributions receivable	(312,758)	(365,758)
	21,263,343	 24,477,073
Less current portion, net of discount	-	 -
Contributions receivable, net	\$ 21,263,343	\$ 24,477,073
Contributions receivable at June 30, 2017 and 2016 are intended for the following uses:		
	2017	2016
Endowment	\$ 6,461,658	\$ 8,947,870
Beneficial interest in trusts held by a third party	11,346,297	10,220,504
Other	3,455,388	 5,308,699
Total	\$ 21,263,343	\$ 24,477,073

^{41.0%} and 45.0% of contributions receivable was due from one donor and two donors at June 30, 2017 and 2016,

NOTE 4 - INVESTMENTS:

Where permitted by gift agreement and/or applicable government regulations, investments are pooled. Pooled investments and allocation of pooled investment income are accounted for on a unit value method. The following is a summary of data pertaining to this method for the years ended June 30, 2017 and 2016:

	20			2016
Unit market value at end of year	\$	540.08	\$	493.60
Units owned:				
Unrestricted		71,009		68,710
Temporarily restricted		21,202		21,396
Permanently restricted		548,154		523,867
Total		640,365		613,973

Investment income related to College investments, net of management and custody fees of \$1,395,114 and \$1,385,868 for the years ended June 30, 2017 and 2016, respectively, is as follows:

	2017	2016
Pooled investments income	\$ 1,115,631	\$ 915,605
Pooled investments gains (losses) appropriated	15,540,136	15,150,561
Total spending policy income and gains (losses)	16,655,767	16,066,166
Less amounts allocated to annuity and life income		
contracts/agreements	(221,834)	(231,803)

NOTE 5 - FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS, CONTINUED:

The following table includes a rollforward of the amounts for the years ended June 30, 2017 and 2016 for the assets classified within Level 3:

	Beneficial Interest in Trusts
Balance at July 1, 2015	\$ 10,602,026
Actuarial Adjustment	(381,522)
Balance at June 30, 2016	10,220,504
Actuarial Adjustment	1,125,793
Balance at June 30, 2017	\$ 11,346,297

The College's policy is to recognize transfers in and transfers out of Level 1, Level 2 and Level 3 at the beginning of the reporting period.

Private equity funds' unfunded commitments are estimated to be callable as follows:

Fiscal Years Ending

June 30,	Amount
2018	\$ 14,106,000
2019	13,836,000
2020	13,126,000
2021	12,360,000
2022	9,602,014
	\$ 63,030,014

NOTE 5 - FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS, CONTINUED:

The following table presents fair value measurements of investments that calculate net asset value per share (or its equivalent) as of June 30, 2017:

		Fair Value		Unfunded ommitments	Redemption Frequency	Redemption Notice Period
Investments:						
Domestic equities	(i)(j)	\$	22,515,147	\$ -	monthly, quarterly, annually weekly, monthly	60-90 days
International equities	(j)		74,302,724	-	quarterly, triennially	5-90 days
International fixed income Hedge funds:	(j)		8,889,544	-	monthly	10 days
Diversifying	(a)(e)		34,638,126	-	daily, semi-month monthly, quarterly, annually	2-180 days
Growth oriented	(a)(b)				annually,	
	(c)(f)		13,317,788		triennially	
Private equity:				-		90 days
Real properties	(d)(g)		3,318,812	2,496,427	n/a	n/a
All others	(d)(h)		83,421,442	60,533,587	n/a	n/a
Total	/	\$	240,403,583	\$ 63,030,014	_	
					=	

- (a) Includes side pockets which are illiquid and redeemed when the underlying investments are liquidated.
- (b) Includes funds which are subject to a gate of 25% per quarter.
- (c) Includes funds that are subject to rolling 2 year redemption frequency.
- (d) Redemption terms do not apply to private equities as distributions are received when the underlying investments are liquidated.
- (e) Absolute return strategy seeks to achieve capital appreciation employing event driven investment strategies that generate attractive risk adjusted returns.
- (f) A long/short equity strategy seeks to outperform the broader market averages while minimizing volatility and risk by investing in businesses trading at attractive valuations and short selling stocks in poorly performing, overvalued businesses.
- (g) Private equity real properties opportunistic strategy targets office redevelopments, residential land developments, hotels and resorts, involving some level of repositioning, refinancing or use change.
- (h) Private equity others diversified investments in various portfolio companies at different stages, industries or regions, providing venture capital and/or restructuring expertise and subsequently selling the company to generate returns.
- (i) Includes a fund that has annual liquidity after a 5 year lock up.
- (j) The college holds marketable securities such as domestic and international equities, as well as US Treasuries, and global municipal, government and corporate bonds. Marketable security fair values are based on quoted market prices. If a price is not available, fair value is determined using the quoted market price for similar securities.

NOTE 6 - PLANT FACILITIES:

Plant facilities are recorded at cost or estimated fair value at the date of donation, and at June 30, 2017 and 2016 consists of the following:

	2017	2016
Land and land improvements	\$ 17,656,168	\$ 16,346,259
Buildings	159,751,994	127,377,157
Equipment and furnishings	12,726,230	11,764,204
Property held for future use	3,610,222	3,610,222
Construction in progress	 7,684,467	26,925,077
	201,429,081	186,022,919
Less accumulated depreciation	 (70,610,286)	(64,628,060)
Net plant facilities	\$ 130,818,795	\$ 121,394,859

NOTE 7 - LIFE INCOME AND ANNUITIES PAYABLE:

Life income and annuities payable of \$3,591,066 and \$5,199,826 at June 30, 2017 and 2016, respectively, represent actuarially determined liabilities for contractual obligations under gift annuities, unitrusts, and pooled income funds.

NOTE 8 - BONDS AND NOTE PAYABLE:

At June 30, 2017 and 2016, bonds and note payable were comprised of the following:

	 2017	2016
Bonds - California Educational Facilities Authority (CEFA) Series 2007	\$ 26,055,000	\$ 26,935,000
California Municipal Finance Authority (CMFA) 2013 Tax-exempt Loan	 48,965,943	45,845,107
	75,020,943	72,780,107
Plus unamortized cost of issuance	(575,992)	(601,481)
Less unamortized discount	 (113,503)	(117,923)
Bonds and note payable, net	\$ 74,331,448	\$ 72,060,703
	_	_
Current portion	\$ 2,089,424	\$ 1,926,000
Long-term portion	 72,242,024	70,134,703
Bonds and note payable, net	\$ 74,331,448	\$ 72,060,703

In October 2007, the College issued unsecured CEFA Revenue Bonds Series 2007 in the aggregate principal amount of \$30,555,000 due in November 2037. The bonds are due in annual installments ranging from \$70,000 to \$2,305,000, and bear interest rates ranging from 3.25% to 5.0%. Bonds maturing on or after November 1, 2018 are subject to optional redemption at par plus accrued interest. The bonds were issued for the purpose of financing and refinancing the acquisition, construction, improvement, rehabilitation, renovation, and equipping of certain educational facilities. Refunding proceeds of approximately \$16,695,000 were deposited into an irrevocable trust with an escrow agent to provide for the redemption of the CEFA Series 1999 and a portion of the CEFA Series 2001 bonds; as a result, the bonds have been legally defeased and the liability for these bonds have been removed from the Statements of Financial Position.

NOTE 8 - BONDS AND NOTE PAYABLE, CONTINUED:

In June 2013, the College signed an unsecured CMFA Tax-exempt Loan agreement not to exceed \$50,000,000 that matures July 2043. Interest rates range from 3.25% to 3.50% per annum. The note requires monthly interest only payments through July 2016 and monthly principal and interest payment thereafter. The note was issued for the purpose of financing and refinancing the acquisition, construction, improvement and equipping of certain educational facilities, including related administrative facilities, site improvements and parking. Refunding proceeds of approximately \$6,323,000 were deposited into an irrevocable trust with an escrow agent to provide for the redemption of the CEFA Series 1997 and a portion of the CEFA Series 2001 bonds; as a result, the bonds have been defeased and the liability for these bonds have been removed from the Statements of Financial Position.

Interest expense was \$2,929,760 and \$2,089,197 for the years ended June 30, 2017 and 2016, respectively. Interest expense includes amortized discount (premium) and cost of issuance of \$29,909 for the years ended June 30, 2017 and 2016, respectively.

At June 30, 2017, the bond maturities were as follows:

Fiscal Years Ending June 30,	Principal
2018	\$ 2,089,424
2019	2,171,091
2020	2,254,807
2021	2,343,776
2022	2,435,055
Thereafter	63,726,790
	\$ 75,020,943

The CEFA Series 2007 bond agreements and CMFA 2013 Tax-exempt Loan contains various restrictive covenants which include the maintenance of certain financial ratios, as defined in the agreement.

The College has a secured \$5,000,000 line of credit with a bank. Any borrowings on the line would bear interest at either a fluctuating rate per annum equal to the Prime Rate as published in the Wall Street Journal less 1% or, if the Prime Rate is not available, a Substituted Index comparable to the Prime Rate. There were no borrowings outstanding on the line at June 30, 2017 and 2016.

The estimated fair value of the College's CEFA bonds payable was approximately \$26,319,000 and \$28,136,000 at June 30, 2017 and 2016, respectively. The fair value was estimated based upon the discounted amount of future cash outflows based on current rates available to the College for debt of the same remaining maturities. The College determined these CEFA bonds to be Level 2 measurements in the fair value hierarchy.

NOTE 9 - ASSET RETIREMENT OBLIGATION:

The College has recorded asset retirement obligation related to plant facilities, primarily for disposal of regulated materials upon eventual retirement of the assets.

The following schedule summarizes asset retirement obligation activity for the years ended June 30, 2017 and 2016:

		2017		2016
Accretion expense	\$	43,873	\$	41,872
Beginning balance		922,085		880,213
Ending balance	\$	965,958	\$	922,085
NOTE 10 - NET ASSETS:				
At June 30, 2017 and 2016, net assets consists of the following:				
		2017		2016
Unrestricted:

With purpose restriction	13,275,142	10,583,691
Total temporarily restricted endowment funds	160,125,934	134,201,843
Permanently restricted endowment	149,672,168	141,717,527
Total endowment net assets	\$ 343,166,443	\$ 306,329,587

NOTE 11 - ENDOWMENT:

The net assets of the College include permanent endowment and funds functioning as endowment. Permanent endowments are subject to the restrictions of gift instruments requiring in perpetuity that the principal be invested and the income only be utilized as provided for under the California Uniform Prudent Management of Institutional Funds Act. While funds functioning as endowment have been established by the Board of Trustees to function as endowment, any portion of such funds may be expended.

For the year ended June 30, 2017:

NOTE 12 - NET STUDENT REVENUES:

Student revenues for the years ended June 30, 2017 and 2016 consist of the following:

	2017	2016
Tuition and fees	\$ 53,424,447	\$ 48,893,084
Room and board	 13,886,148	12,445,394
	67,310,595	 61,338,478
Less:		
Student aid	(16,291,421)	(15,873,097)
Net student revenues	\$ 51,019,174	\$ 45,465,381

NOTE 13 - FUNDRAISING EXPENSE:

Included in marketing expense in the Statements of Activities are approximately \$3,770,000 and \$3,995,000 of fundraising expenses for the years ended June 30, 2017 and 2016, respectively.

NOTE 14 - OPERATING LEASES:

The College leases various office equipment with lease terms that expire through 2022. Annual lease payments range from approximately \$400 to \$32,300. The lease payments for the years ended June 30, 2017 and 2016 were approximately \$51,700 and \$60,100, respectively. The following is a summary of future minimum rental payments for operating leases that have initial or remaining non-cancelable terms in excess of one year as of June 30, 2017:

Fiscal Years Ending June 30,	Lease Payments
2018	\$ 66,283
2019	50,155
2020	45,058
2021	45,058
2022	35,584
	\$ 242,138

NOTE 15 - RELATED PARTIES:

Trustees support the College with contributions to the College. Total contributions from trustees during fiscal years ended June 30, 2017 and 2016, totaled approximately \$1,976,000 and \$423,000 respectively. At June 30, 2017 and 2016, trustee contributions receivable, net of discount, totaled approximately \$2,840,000 and \$4,970,000, respectively.

A College Trustee is the CEO of an investment counsel firm which performs accounting, tax reporting, and investment management of the College's Charitable Remainder Trust program. At June 30, 2017 and 2016, the fair value of the program totaled approximately \$2,619,000 and \$4,998,000, respectively. Payments to the firm during fiscal years ended June 30, 2017 and 2016 totaled approximately \$49,000 and \$61,000, respectively.

NOTE 16 - EMPLOYEE BENEFIT PLANS:

The College participates in a defined contribution retirement plan which provides retirement benefits for academic employees and certain administrative personnel through Teachers Insurance and Annuity Association, The College Retirement Equity Fund, and Fidelity and Vanguard Mutual Funds. Under this defined contribution plan, College and participant contributions are used to purchase individual annuity contracts and investments equivalent to retirement benefits earned. Vesting provisions are full and immediate. Benefits commence upon retirement, and pre-retirement survivor death benefits are provided. College contributions to the plan for the years ended June 30, 2017 and 2016 totaled approximately \$2,560,000 and \$1,046,000, respectively.

The Claremont University Consortium administers a defined benefit plan ("The Plan") covering substantially all non-academic employees of the College, along with those of the other Claremont Colleges (Note 17). The Plan is in accordance with the Employer Retirement Income Security Act of 1974. The benefits are based on years of service, career average compensation, and amount of employee contributions. Plan assets are invested in a diversified group of equity and fixed-income securities in an insurance company's separate and general accounts. The College's allocation of the net pension (credit) cost for the years ended June 30, 2017 and 2016 was approximately \$2,000 and \$183,000, respectively. A decision was made to curtail the Plan in June 2004. Under the curtailment, the accrued benefits earned as of June 30, 2005 were frozen and no future benefits will be earned under the plan. The impact of the curtailment was a reduction to the benefit obligation. Eligible plan participants began receiving benefits under the defined contribution retirement plan in July 2005. Additional information on the Plan can be obtained from the audited financial statements of Claremont University Consortium. As of June 30, 2016, all plan assets were liquidated to fund the financial obligation of the plan termination. Plan assets were historically invested primarily in a diversified group of equity and fixed-income securities and were in accordance with the Employee Retirement Income Security Act (ERISA). Accrued benefit liability and employer contributions were allocated to each of The Claremont Colleges based on participant data or other methods deemed appropriate by the Plan's actuary.

NOTE 17 - AFFILIATED INSTITUTIONS:

The College is a member of an affiliated group of colleges known as The Claremont Colleges. Each college is a separate corporate entity governed by its own board of trustees. Claremont University Consortium, a member of this group, is the central coordinating institution that provides common student and administrative services, including certain central facilities utilized by all The Claremont Colleges. The members of the group share the costs of these services and facilities. Amounts paid by the College for such services and use of facilities for the years ended June 30, 2017 and 2016 totaled approximately \$4,385,000 and \$4,255,000, respectively.

NOTE 18 - COMMITMENTS AND CONTINGENCIES:

Contracts

The College has remaining commitments on contracts to renovate an existing residence hall and to build a new residence hall totaling approximately \$3,376,000 at June 30, 2017.

Litigation

Occasionally, the College is involved in lawsuits arising in the ordinary course of its operations. In the opinion of management, the ultimate resolution of these lawsuits is not expected to have a material effect on the College's financial position or change in net assets.

Federal

Certain federal grants including financial aid which the College administers and for which it receives reimbursements are subject to audit and final acceptance by federal granting agencies. Current and prior year costs of such grants are subject to adjustment upon audit. The amount of expenditures that may be disallowed by the grantor, if any, cannot be determined at this time, although the College expects such amounts, if any, would not have a significant impact on the financial position of the College.

NOTE 19 - SUBSEQUENT EVENTS:

Subsequent events are events or transactions that occur after the statement of financial position date but before financial statements are available to be issued. The College recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of financial position, including the estimates inherent in the process of preparing the financial statements. The College's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of financial position but arose after the statement of financial position date and before financial statements are available to be issued.

In October 2017, the College entered into an agreement through CMFA to refund the outstanding CEFA Series 2007 bonds, and existing CMFA 2013 Tax-Exempt Loan, with a Tax-Exempt refinancing. The agreement provides the flexibility for the College to draw periodic advances from this facility through November 1, 2018, with an interest rate fixed at 2.5%, up to a maximum of \$90 million, with a maturity date of November 1, 2040.

The College has evaluated subsequent events through November 1, 2017, which is the date the financial statements are available for issuance, and concluded that there were no additional events or transactions that need to be disclosed.
