

## Campaign Vision and Goals

This is an exciting time in the life of Scripps College as we near our 100th anniversary in 2026. Founded on the conviction that education is the gateway to empowerment, Scripps has transformed generations of women, preparing them to lead with confidence, courage, and hope.

**Our vision is to raise \$100 million to secure a future of infinite possibility for the next century of women leaders.**

### **ACCESS: \$25 Million Goal**

Supporting access to a Scripps education will expand the College's global positive impact and our alums' leadership in traditionally male-dominated areas, such as public policy, finance, and STEM.

#### ***Scripps Access Initiative: Scholarships and Loan Reduction: \$20 Million***

While Scripps only admits exceptional students who will enhance our community, many lack the financial resources to enroll. Scripps aims to become a need-blind institution where economic barriers never block the admission of meritorious students. With donor investment, we will extend a greater number of low- and no-loan packages and four-year scholarships to cover tuition, housing, and food—a powerful step toward achieving need-blind status. In turn, student debt will diminish while the intellectual, cultural, and socioeconomic richness of our community expands.

#### ***Inclusive Student Success: \$5 Million***

Removing financial barriers to enrollment is the first step to expanding access, but we must also ensure our students thrive throughout their academic journey. Donor support of programs like the Scripps College Academy, First-Generation @ Scripps, and Summer Science Immersion Program helps fulfill our promise of delivering an immersive, holistic academic experience to all students.

### **INNOVATION: \$25 Million Goal**

Innovation at Scripps is about infusing agility and interdisciplinarity throughout our curriculum to ready students to lead in a world that doesn't yet exist.

#### ***Faculty Scholarship and Undergraduate Research: \$15 Million***

Scripps cultivates flexible thinkers who define—not follow—the future. Donor support for endowed research funds, faculty sabbaticals, course development, and student research fuels real-world problem-solving, while increased funding for conference travel and community-engaged research across disciplines extends Scripps' global impact and prepares students to share their work as confident scholars.

### ***Academic and Career Pathways: \$10 Million***

Our students go beyond the classroom to launch a lifetime of innovation, discovery, and influence. Donor support of career-building experiences will increase the number and amount of internship grants, provide intensive career counseling, and expose students and alums to industry experts. These investments will enrich their scholarly and professional prospects, extend their professional networks, and prepare them for fulfilling careers.

### **COMMUNITY: \$50 Million Goal**

At Scripps, a sense of belonging and purpose form the root of our liberal arts education. Our campaign seeks to reinforce this source of Scripps' strength: a shared commitment to putting people first. Your investment here ultimately creates a more just, vibrant, and inclusive world for all of us.

### ***Vibrant Campus: \$40 Million***

Known for its beautiful grounds and stunning architecture, Scripps was designed to support and center community. For the next century, the College aims to enhance the physical and mental wellbeing of its students, faculty, staff, and greater Scripps community through constructing the Centennial Plaza Project, enhancing sustainability practices, and elevating students' residential experience. Together, these efforts will foster community and cultivate curiosity and collaboration for future generations.

### ***Visionary Leadership: \$10 Million***

An investment in visionary leadership helps us drive women's influence through student participation in leadership conferences, fellowships, internships, and training. We will empower students to address humanitarian and environmental issues and advance Scripps' legacy of inclusion, diversity, equity, and access to create positive change where it's needed most.
